THE WOOD ELEMENT
HOUSE OF VENEER

EMPORIO

COLLECTION

The use of fluted panels in interior design has become increasingly important, with a lack of options currently available in the veneer category.

Our latest collection of fluted panels, which are made with veneer and can be customized with any veneer item of your choice, has just been launched.

Our culture is rooted in the constant pursuit of innovation & the latest trends in decorative veneer-based items.

***The new Emporio Collection is
a testament to that commitment.***
